

Chrome Billet

Afterburnerz

Chrome Billet Lights pick up a pair they are perfect for bags or a single one for a tail light. The largest one includes 48 LEDs. The Medium size comes with the 25 LEDs. The smallest but still mighty has 16 LEDs. All the LEDs have a run/brake function built into the light.

Choose a Red LED or Amber LED

Choose a lens the same color as the LED or a Clear lens
The large Afterburnerz do come in a chrome, polished, or satin black finish

The large Afterburnerz can even be used with the Dogeye style LED cluster (amber LEDs on the outside for turn and red and the inside for brake).
