

**Dual Chamber Air Ride System**

This system allows you to control the comfort without losing performance. ride it low, high, stiff, or soft.

The DaPincci air suspension is the first total control air suspension.

Meaning you can pressurize the top of the shock along with a separate control for the bottom pressure of the shock.

The advantage of this system you can eliminate the sometimes dangerous bounce that other air suspensions deliver.

Choose the model bike you have a **Hayabusa, R1, R6, ZX10, ZX12, ZX14, or M109**

You can now choose to a polished cylinder or a **chromed**.

**Slip-ons Exhaust**

DaPincci's own Chromed billet exhaust slip-ons for the Hayabusa. Has a baffle built in it and a sick slash tip on the end. These pipes sound as insane as they look.

**\*\*Note: Will fit 2008 models\*\***

Outside Diameter: 2 inches

Total length: 17in.

Sold in pairs
